

Call for Invited Sessions

IntelligenceX 2026 – The Global Quantum × AI Frontier
24–26 September 2026 | Singapore

The Organising Committee of IntelligenceX 2026 invites proposals for Invited Sessions to be held during the main conference on 24–26 September 2026 in Singapore.

IntelligenceX 2026 is the flagship global conference of the Society of Algorithmic Intelligence (SoAI), co-organised with the National University of Singapore (NUS). The conference brings together researchers, practitioners, and industry leaders to exchange ideas and advances in quantum computing, artificial intelligence, data science, optimization, statistics, and hybrid Quantum×AI systems.

Themes of Invited Sessions

Invited Sessions may cover theory, methods, applications, and/or industry showcases, including:

- Theoretical foundations of AI, quantum computing, optimization, and data science
- Algorithmic and methodological advances in AI, ML, optimization, and statistics
- Hybrid Quantum×AI systems, architectures, and applications
- Applications in, but not limited to, finance, engineering, logistics, healthcare, and energy
- Industry showcases, real-world deployments, and emerging use cases

Organizing Sessions

Each Invited Session is expected to include four registered speakers.

For each successfully accepted Invited Session:

- The session organiser will be formally acknowledged in the conference programme.
- Complimentary SoAI membership will be offered to all participants of the invited session. Participation as a SoAI member is entirely optional, and attendees are welcome to join the conference without any obligation to become members.
- An honorarium of up to SGD 600 may be offered to the session organiser in recognition of the organisational responsibilities involved.

Registration

- The **early-bird conference registration fee** until 31 July 2026 is **SGD 600**
- **SoAI members** enjoy a **discounted early-bird rate of SGD 300**
- **Regular conference registration fee** is **SGD 800**

Submission and Review

- **Submission deadline: 31 July 2026**
- **Acceptance:** Invited Sessions will be accepted on a **rolling (rotation) basis**, subject to programme capacity.

Invited Session proposals should include:

- Session title
- Name, affiliation, and contact details of the session organiser
- List of proposed speakers and tentative talk titles
