

Call for Contributed Talks

IntelligenceX 2026 – The Global Quantum × AI Frontier
24–26 September 2026 | Singapore

The Organising Committee of IntelligenceX 2026 invites proposals for Contributed Talks to be held during the main conference on 24–26 September 2026 in Singapore.

IntelligenceX 2026 is the flagship global conference of the Society of Algorithmic Intelligence (SoAI), co-organised with the National University of Singapore (NUS). The conference brings together researchers, practitioners, and industry leaders to exchange ideas and advances in quantum computing, artificial intelligence, data science, optimization, statistics, and hybrid Quantum×AI systems.

Themes of Contributed Sessions

Contributed Sessions may cover theory, methods, applications, and/or industry showcases, including:

- Theoretical foundations of AI, quantum computing, optimization, and data science
- Algorithmic and methodological advances in AI, ML, optimization, and statistics
- Hybrid Quantum×AI systems, architectures, and applications
- Applications in, but not limited to, finance, engineering, logistics, healthcare, and energy
- Industry showcases, real-world deployments, and emerging use cases

Each Contributed Session is expected to last about 20 minutes. Complimentary SoAI membership will be offered to all participants of the contributed session. Participation as a SoAI member is entirely optional, and attendees are welcome to join the conference without any obligation to become members.

Registration

- The **early-bird conference registration fee** until 31 July 2026 is **SGD 600**
- **SoAI members** enjoy a **discounted early-bird rate of SGD 300**
- **Regular conference registration fee** is **SGD 800**

Submission and Review

- **Submission deadline: 31 August 2026**
- **Acceptance:** Contributed Talks will be accepted on a **rolling (rotation) basis**, subject to programme capacity.
